

Tinodashe Kayenie

Software Developer & Solutions Architect

tkayenie@gmail.com | +263773598539 | 5267 Highfield Harare

PROFESSIONAL SUMMARY

Highly accomplished Lead Software Developer and Solutions Architect with 3+ years of experience in designing, developing, and deploying enterprise-scale systems. Expertise in microservices architecture, cloud infrastructure (Amazon Web Services (AWS)), and Artificial Intelligence (AI)-driven solutions. Proven track record of improving system performance, enhancing security, and mentoring junior developers. Adept in DevOps practices and Agile methodologies.

SKILLS

- Java • Spring Boot • JavaScript • Python
- Django REST Framework • Reactive Web Programming (WebFlux) • Amazon Web Services (AWS) • Docker
- Kubernetes • Microservices Architecture • System Design • GitOps
- GitHub Actions • Jenkins • CI/CD Pipelines • Infrastructure as Code
- Apache Kafka • Event-Driven Systems • PostgreSQL • MySQL
- MongoDB • Redis • Elasticsearch • OpenCV
- TensorFlow • PyTorch • Computer Vision • Anomaly Detection
- Transport Layer Security (TLS) • Server-Side Encryption with Customer-Provided Keys (SSE-C) • Multi-Factor Authentication (MFA) • Secure Secrets Management
- Prometheus • Grafana • ELK Stack (Elasticsearch, Logstash, Kibana) • Performance Monitoring
- JUnit • pytest • Unit Testing • Code Quality Standards
- Test-Driven Development • WebRTC • WebSocket • Server-Sent Events (SSE)
- RESTful APIs • Real-time Communication • Ubuntu • Kali Linux
- Windows • Linux Administration • Agile Methodologies • Scrum
- Kanban • Team Leadership • Mentoring • Cross-functional Collaboration
- Technical Leadership • Innovation • Scalability

PROFESSIONAL EXPERIENCE

Lead Software Developer

TelOne Private Limited

Harare, Zimbabwe | 01/2023 - Present

- Led the system design and deployment of Zimbabwe's Smart Traffic Management System, architecting a microservices-based platform that accelerated violation processing time by 80% and scaled to handle 10,000+ daily events with 99.9% system uptime.
- Engineered a secure microservices framework, reducing security incidents by 90% through comprehensive Transport Layer Security (TLS) encryption, Server-Side Encryption with Customer-Provided Keys (SSE-C) for data at rest, Multi-Factor Authentication (MFA) enforcement, reverse proxy masking, and encrypted secrets management across 15+ services in 3 production environments.
- Architected a real-time threat detection system using Amazon Web Services (AWS) GuardDuty, Macie, and custom Artificial Intelligence (AI) models (OpenCV, TensorFlow, PyTorch), achieving 95% accuracy in anomaly detection and minimizing false positives by 60% across 500+ monitored endpoints.

- Spearheaded migration of 3 legacy monolithic systems into 20+ microservices, cutting deployment time by 70%, reducing developer onboarding time by 50%, and enabling polyglot development using Spring Boot and Django.
- Built and scaled InsureMe, Zimbabwe's insurance aggregation platform, supporting multi-policy sales (motor, property, life, travel) with broker integration and secure payment workflows handling 100,000+ daily transactions.
- Implemented comprehensive observability pipelines and alerting systems using Prometheus, Grafana, and ELK Stack (Elasticsearch, Logstash, Kibana), accelerating incident response time by 65%.
- Conducted unit testing and defect resolution using JUnit and pytest frameworks, enforced code quality standards, and led sprint planning and architecture reviews within Scrum and Kanban methodologies, resulting in a 40% enhancement in code quality metrics.

IT Intern - Software Engineering & Network Support

Air Zimbabwe Private Limited

Harare, Zimbabwe | 07/2021 - 07/2022

- Developed inventory management software that accelerated processing time by 70% and enhanced resource allocation efficiency.
- Supported enterprise network monitoring and optimization initiatives, contributing to a 55% enhancement in system reliability and performance.

EDUCATION

Bachelor of Science in Software Engineering (Expected)

Zimbabwe Open University

Zimbabwe | 03/2025 - 08/2027

- Expected Degree Class: First Class

National Diploma in Software Engineering

TelOne Center for Learning

Zimbabwe | 01/2019 - 11/2022

- GPA: 3.92/4.0
- Graduated with Distinction
- Overall Best Technical Student
- Best Software Engineering Student

LANGUAGES

- English • Shona • Ndebele
- Zulu • Tswana • Afrikaans
- Venda • Tsonga

COURSES

- Mastering Microservices with Spring Cloud (03/2025)
- **Amazon Web Services (AWS) Solutions Architect**
- *Udemy Online | 04/2025*
